

Induction Low Bay Lighting

System Performance

- Low Energy
- High Light Output
- Typical +100,000 hours Lamp Life
- Instant On/Off Functionality
- Available in Three Options 100w, 150w and 200w
- Low Maintenance (Ideal Solution to Limited Access Areas)
- Polycarbonate or Glass Covers Optional
- Metal Lamp Enclosures
- Multiple Mounting Heights Up To 8 metres
- High Quality Light Output

Applications

- Factories
- Warehousing
- Workshops
- Food Production Areas
- Sports Halls

Input

- 230 Volt AC +/- 10% 50 Hz

Output

- 50/60 Hz
- CRI (Ra)=80+
- Lamp Frequency 250 KHz
- Power Factor =>0.95
- THD%<10%

Miscellaneous

- Low Heat Generation
- No Flickering
- No Strobging
- No Noise
- Operating Temperature -40°C to +60°C
- Multiple Mounting Height Options
- IP54
- High Output Reflector
- Standard Colour Lamp 5000k (Closest to Natural Daylight)
- Meets All UK Legislations
